CAREER OBJECTIVE

B.Tech Computer Science student with a strong focus on mobile and web development. Solved algorithmic problems. Seeking internship opportunities to build scalable applications and strengthen problem-solving and software engineering skills.

EDUCATION

Pranveer Singh Institute of Technology (PSIT)

B.Tech, Computer Science & Engineering (CSE)

CGPA: 8.5 (up to 5th semester)

2027 | Kanpur, Uttar Pradesh

Jawahar Navodaya Vidyalaya, Schooling

Senior Secondary (class 12th) - 81.8%

High School (class 10th) - 91.2%

2022 | Lakhimpur, Uttar Pradesh

2020 | Lakhimpur, Uttar Pradesh

WORK EXPERIENCE

Fluxvisio Dynamics LLP, React Intern

12/2024 – 01/2025

Contributed to production-level web development using React.js, focusing on UI improvements, API integrations, and debugging.

TECHNICAL SKILLS

Frontend & Mobile - HTML, CSS, React, Next.js, React Native.

Backend & Databases - Node.js, Express, REST APIs, SQL, Firebase Firestore.

Core Programming & CS Fundamentals - Java, JavaScript, Data Structures & Algorithms, DBMS, Object-Oriented Programming (OOP), Basics of System Design

CERTIFICATIONS

DSA with Java - [Apna College](#)

12/2025

Completed structured training covering arrays, recursion, DP, and problem-solving techniques.

Web Development - [Apna College](#)

02/2025

Learned to build full-stack applications using MongoDB, Express, React, and Node.js.

PROJECTS

[Syncify](#), Next.js, Supabase

11/2025 – 12/2025

Built a real-time system for synchronized media playback using WebSockets

Implemented latency correction to maintain sync across devices

Designed backend event handling and state synchronization using Supabase Realtime

[Apna Menu](#), Major Project

05/2025 – 07/2025

Built an AI-powered backend system for managing restaurant menus using natural language inputs.

Designed REST APIs for CRUD operations on menu data with Firebase backend.

Implemented real-time updates and data synchronization for multi-user access.

Developed chatbot-based interface to process user commands into structured database operations.

[BellNoted](#), React Native

09/2025 – 09/2025

Developed automated attendance tracking using Puppeteer for data scraping.

Backend workflows for processing, storing, and notifying user attendance

Designed periodic data pipelines and implemented secure credential storage

ACHIEVEMENTS

Solved 500+ DSA problems with a max LeetCode contest rating of 1738.

Secured 16th rank out of 1500+ participants in a college coding hackathon.
